Projects

Portfolio | Next Js, Tailwind CSS | [Live Site](#)

- Highlighted key accomplishments and skills to provide a comprehensive overview of professional achievements.
- Developed a responsive portfolio website using Next.js, Tailwind CSS

Business Card | React JS, Tailwind CSS, Typescript, Zustand, vcard-js | [Live Site](#)

- Streamlines digital contact sharing through an intuitive interface that generates downloadable vCards from user-entered information, built with modern React and Zustand state management.
- Simplifies professional networking with a lightweight vCard generator that transforms personal details into universally compatible contact files, powered by React's component architecture.

Covid-Info | Typescript, React JS, Tailwind CSS, Redux-Toolkit, React Query | [Live Site](#)

- Developed interactive COVID-19 data visualization features, including a world map with country markers and interactive charts, using React.js, React-Leaflet and Chart.js.
- Implemented a contact management system enabling users to create, edit, and delete contacts, improving user engagement and data management.

The Pokemon Book | React JS, CSS, Typescript | [Live Site](#)

- Provided detailed Pokémon information, including height, weight, and base experience points, enhancing user engagement and knowledge.
- Implemented a seamless search functionality, allowing users to quickly locate and access specific Pokémon.

Technical Skills

Languages JavaScript, Typescript

Technologies/Frameworks/Libraries: HTML, CSS, Tailwind CSS, React JS, Next JS, React-Native, Node JS, Redux-Toolkit, WordPress, SQL

Other: Git, IIS server

Work Experience

Kfintech (Parent Company) — WobileApps (Subsidiary Company)

December 2023 – Present

Software Engineer- Trainee

Hyderabad, India

- Joined Kfintech as a Software Engineer Trainee and was transitioned to WobileApps after its acquisition by Kfintech. Continued working on Kfintech projects while being officially employed by WobileApps.
- Implented and used frontend technologies to create a user-friendly user interface and strong application logic, guaranteeing responsiveness and a smooth user experience.
- RESTful APIs were integrated and tested to improve website functioning and customer satisfaction by streamlining data transmission.
- Successfully built and deployed white-labeled websites using IIS, providing scalable and customizable solutions tailored to diverse client needs, utilized by Groww, Oldbridge and JM Financial.

Brandvalley Technologies

October 2023 – December 2023

Front-End Developer - Intern

Remote

- Demonstrated expertise in crafting responsive websites using SCSS, ensuring optimal user experiences.
- Applied creativity and meticulous attention to detail, enhancing both the visual appeal and functionality of the website.
- Swiftly acquired proficiency in React Native within a month of onboarding, contributing significantly to small-scale projects as a Frontend Developer.

Education

Dr. MGR Educational and Research Institute

2019 - 2023

Bachelor of Technology (B. Tech) in Electronics and Communication Engineering

Chennai, India

Achievements

- **2nd Place** – TechAstra '19 (Web-D-Tech) for designing and developing a WordPress-based website
